

Lighting solutions with an emphasis on energy-efficiency and technically-sound research.

IVGID Pool, Pete Rafalik, Photographer

Light + Space was founded in 2002 by Lee Harris, an electrical engineer with more than 20 years of experience in the lighting industry. Light + Space has successfully provided lighting design for parking garages, bridges, city and county council chambers, offices, schools, teleconference rooms, casinos, retail, restaurant/bars, houses of worship, art galleries, natatoriums, landscape projects, and more.

- Pat Pusich, AIA (775) 857-2949

LIGHT + SPACE provides both the aesthetic and technical components of lighting design for interior and exterior spaces.

SERVICES

- + Evaluating existing conditions—Tasks performed, fixtures, lamps, ballasts, controls, location, light levels.
- + Schematic Design—Evaluating concepts to meet the client’s lighting needs.
- + Design Development—Research, analysis of alternatives, photometric calculations as input to the lighting system design.
- + Construction Documents—Lighting plan, fixture schedule, and fixture specifications.
- + Construction Administration—Follow project through implementation to ensure desired results.
- + Presentations as needed to inform agencies, review boards, and public.
